

BERMAD Fire Protection

SUT Storage Terminal

Project Name	SUT Storage Terminal
Country	Singapore
Segment	Fire Protection
Application	Classic Deluge
Classification	UL-Listed per NFPA codes; EExd cert.
Bermad Solution	FP400E-1M-G-C-A5-PR-NN Water spray system for cooling the storage tank surface

BERMAD Fire Protection

SUT Storage Terminal

Optional Text	<p>Sembawang Utility Terminal (SUT) in Jorjung Island, Singapore includes Storage tanks that are protected using a water spray system in order to cool the tank surface. Detection is using a wet pilot line with fusible plugs to open the deluge valve. Once the deluge valves are activated they remain latched at open position with local manual reset using Bermad EasyLock manual reset (EMR).</p>
